

Welcome to the Coding Adventure!

This game is full of coding puzzles, logic challenges, and hidden clues. Each solved challenge unlocks the next stage. Use the clues carefully and remember: each stage's answer is crucial to advancing to the next!

Strict Rules to open New Level in the Game

Unlocking the Files: A Mystery Adventure

Welcome to the challenge! Here's how you can unlock the files step-by-step:

1. First File:

- Once unlocked, you will find a clue leading you to the second file.

2. Second File:

- For eg: The password for the previous file is: **65**
- Upon unlocking it, you will uncover the next clue.
- Solve it and find the password .
- Lets suppose the password is: **dev**
- Unlock the next file with the password : **65dev**

3. Third File:

- The password you get after solving the third file is: **90**
- This password will open the third file and reveal the final piece of the mystery.
- Password for the next file : **65dev90**

4. Goes on

ADD ON : If the image is giving you the Password .

The Name of the IMAGE SHOWN is the Password you would enter to unlock the new level .

Each step brings you closer to solving the puzzle! Good luck!
